### Materials List

Materials	Reuse	Recycle	Dispose
<b>Mixed C &amp; D</b> - Select Mixed C&D if you are commingling multiple non-hazardous materials into one bin, box, or truck. <small>Note: Commingling of multiple materials to be processed at registered facilities does not guarantee you will meet the recovery requirements. To ensure you comply with this jurisdiction's recovery requirements it's highly recommended that recyclable and/or reusable materials be source separated.</small>			
<b>Mixed C &amp; D Debris</b> <small>(Mixed debris that is not source separated, but can be recycled must be brought to an authorized registered facility.)</small>	N/A	<input checked="" type="checkbox"/>	N/A
<b>Source Separated Materials</b> - Please identify any recyclable materials you will separate on-site for recycling. <small>Note: Separating any of the recyclable materials listed below from your Mixed C&amp;D as clean materials will increase your recycling rate and your chances of complying with this jurisdiction's recovery requirements.</small>			
<b>Aluminum Cans</b> <small>(container for for packaging made out of aluminum commonly used for foods and beverages)</small>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Appliances &amp; Equipment</b> <small>(All non-functional appliances, HVAC units, air handlers and restaurant equipment *freon must be evacuated*)</small>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Asphalt - Pavement &amp; Grinding</b> <small>(Pavement and asphalt grindings. *EXCLUDES roofing materials*)</small>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Asphalt - Roofing</b> <small>(Built up, torched down, and asphalt shingles. *For untreated wood shingles select "wood-clean". For foam roof select "Mixed C&amp;D Debris".*)</small>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Batteries</b> <small>(Household or office used batteries that can be recycled or disposed of safely (*separate from eWaste or Car Batteries))</small>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Bottles &amp; Cans</b> <small>(Plastic drinking bottles and aluminum cans.)</small>	N/A	<input type="checkbox"/>	N/A
<b>Bricks, Masonry &amp; Stone Products</b> <small>(Bricks, masonry, and stone products, including tile. *EXCLUDES ceramics*)</small>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Bulky Miscellaneous Items</b> <small>(couches, office partitions, signs, desks, chairs, tables, mattresses, and other furniture)</small>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
<b>Car Batteries</b> <small>(contains heavy metals such as lead, acid, and plastic. Can be recycled if disposed of properly, otherwise components can contaminate the environment *considered a hazardous material)</small>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

### Debris Box Service

- Debris Box Service:** I will use a Debris Box service for hauling my debris.
- Franchise Agreement**  
The City of Cypress has an exclusive Franchise Agreement with Valley Vista Services. The Franchise Agreement does not preclude any person or entity from separating recyclable materials before they enter the waste stream and making independent arrangements for the donation or sale of such source-separated single recyclable materials. However, independent arrangements with a solid waste service provider other than Valley Vista Services for the collection, transportation or processing of potentially recyclable materials, for a fee or other consideration to be paid, directly or indirectly, to the entity providing the collection and/or transportation service are specifically precluded and prohibited by this Franchise Agreement. Construction contractors, subcontractors, building remodeling contractors and demolition contractors may self-haul construction and demolition waste, if the contractor utilizes only its own employees and equipment to transport the material to a processing or disposal facility. Request a Diversion Report for each load from Valley Vista to verify 75% of the C&D material has been diverted.

### I will be Self Hauling to an Approved Recycling Facility

- Self Haul:** I will haul away the materials in accordance with this Jurisdiction's self haul rules and regulations.
- Self Haul Guidelines**  
Pursuant to Cypress Municipal Code Chapter 12 Article 5, all solid waste, including recyclable materials shall be collected by the Franchise Hauler. Construction contractors, subcontractors, building remodeling contractors and demolition contractors may remove construction and demolition waste from the premises as part of a total service provided by the licensed company to the owner of the premises for a development project, if the licensed company utilizes only its own employees and equipment to transport the material to a processing or disposal facility.

### Project: Smith Residential Remodel

PROJECT INFORMATION PROJECT STATISTICS TRANSPORTER METHOD RECOVERED MATERIALS FACILITIES & TICKETS BID SHEET DATA BY PERMIT FILES MESSAGES & HISTORY **SUBMIT FOR APPROVAL**

#### Read the Terms and Conditions

Pursuant to the 2016 CalGreen Building Code, all projects shall divert a minimum of 65 percent of construction and demolition debris. A waste management plan shall be submitted as part of the application packet for a permit issued for a project. Waste management plans shall be approved or denied no later than 15 business days after a complete application is made.

Cypress Municipal Code Sec. 12-35. Materials compliance reporting within this chapter.

(a) Final report. No later than thirty (30) days from the completion of a covered project, the applicant shall submit a compliance reporting form, under penalty of perjury, to the compliance official. The form shall include the following information:

- (1) The dates demolition and construction actually commenced;
- (2) The actual volume or weight of construction and demolition debris, listed for each material;
- (3) The actual volume or weight of construction or demolition debris that was diverted listed for each material;
- (4) A specification of the method used to determine the volume and weights and a certification that the method used was the most accurate, commercially reasonable method available; and
- (5) Original receipts from all vendors and facilities, which collected or received construction and demolition debris, indicating actual weights and volumes received.

A final report, including receipts from all vendors and facilities with actual weights and volumes received, must be submitted prior to Final Inspection, issuance of a temporary certificate of occupancy or certificate of occupancy. Failure to submit your final materials report will result in a delay in your Final Inspection.
